

REMARKS

The comments of the applicant below are each preceded by related comments of the examiner (in small, bold type).

Claims 1-23 and 25-56 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites "may be" in line 5 which render indefinite because the term "may be" does not require the tasks to be in contention with other task; therefore, the creation of jobs are not required.

Claim 52 recites "may be" in line 6 which render indefinite because the term "may be" does not require the tasks to be in contention with other task; therefore, the creation of jobs are not required.

The claims have been amended although the applicant does not agree with the examiner's position. Claims 1-22 and 24-56 are patentable.

All of the dependent claims are patentable for at least the reasons for which the claims on which they depend are patentable.

Canceled claims, if any, have been canceled without prejudice or disclaimer.

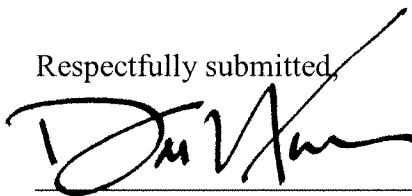

Any circumstance in which the applicant has addressed certain comments of the examiner does not mean that the applicant concedes other comments of the examiner. Any circumstance in which the applicant has made arguments for the patentability of some claims does not mean that there are not other good reasons for patentability of those claims and other claims. Any circumstance in which the applicant has amended or canceled a claim does not mean that the applicant concedes any of the examiner's positions with respect to that claim or other claims.
